

USER GUIDE

Patent Pending ©2006 • Iola Global Designs LLC 08/06

- To avoid injury, replace protective sleeve over stake tip when not in use.
- Drink Daddy® includes small parts, which can present a choking hazard.
- Drink Daddy® holds a maximum of 25 pounds. Do not overload.
- Drink Daddy® does not support human weight.
- Use stemware in stemware holders only.
- Keep out of reach of children.

CAUTION:

Note: Subterranean factors may prohibit installing Drink Daddy® in some locations. These conditions include but are not limited to geological elements such as rocks or bedrock, roots, etc. as well as pipes, buried cement, etc.

Start by digging a shallow hole, install Drink Daddy® as usual, then bury the stirrup stake so that the footplate is no longer visible. This provides added stability in loose conditions.

Special Soil Considerations

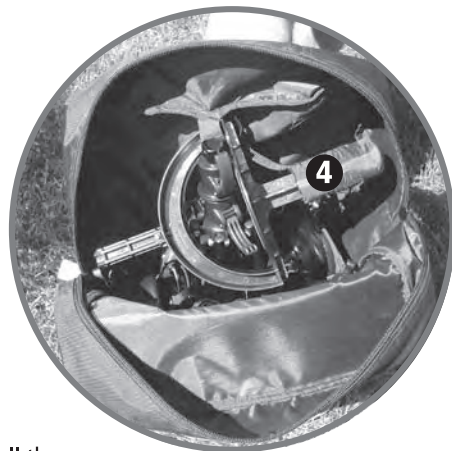

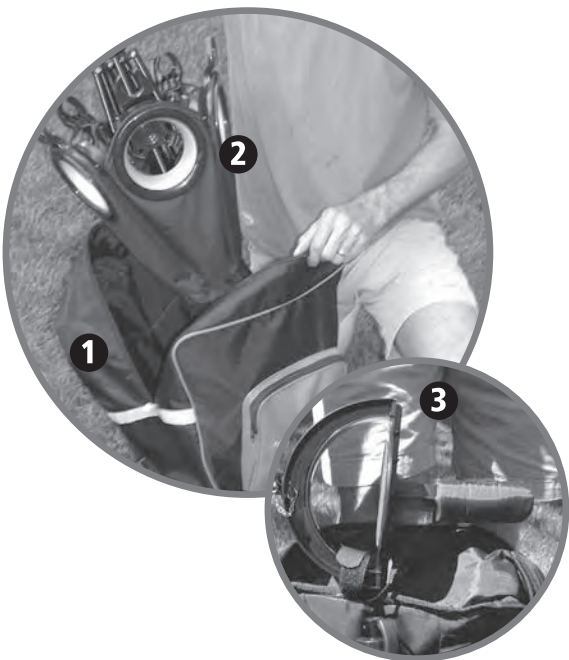

Drink Daddy® in loose conditions such as sand or snow:

Parts List

- A** Table assembly
- B** Stake
- C** Pin
- D** Carry bag
- E** Stake protector

Using the Drink Daddy® Carry Bag

- 1 Unzip bag all the way.
- 2 Place folded Drink Daddy® tabletop-end down into the bag.
- 3 Cover stake tip with protective sleeve and use Velcro straps to secure stake in place.
- 4 Once all items are secure, zip bag.

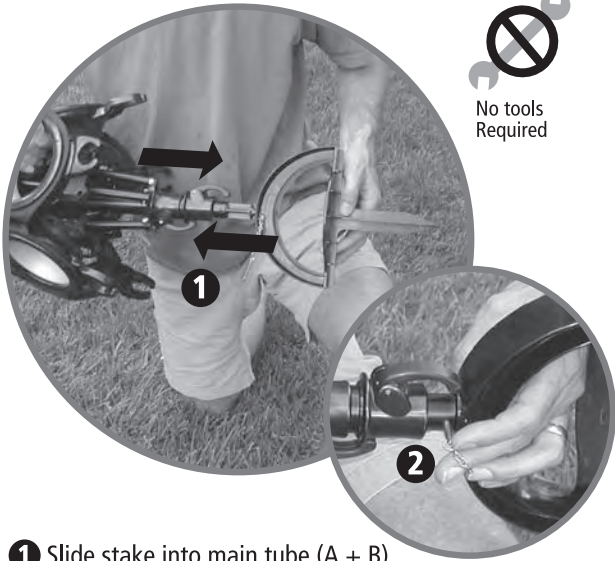

We hope you are delighted with our product. If you have any questions or comments, please visit our website: www.mydrinkdaddy.com

Thank you for purchasing Drink Daddy®

- Store product in dry area.
 - Wipe carry bag with a damp cloth. Do not use detergent.
 - Remove excess soil from the stake before placing in carry bag.
 - Other Drink Daddy® components should be regularly cleaned with a damp cloth. Do not use solvents or similar products.
- Do not use detergents. Allow to air dry.
- (No more than 100° F). Rinse thoroughly to remove soap.
- To clean, use a mild soap solution in lukewarm water. Sunbrella® fabric should be cleaned regularly to remove excessive dirt. Brush off any loose dirt and rinse with warm water.
- Your product requires minimal cleaning and maintenance.

Cleaning & Maintenance

Assembly Instructions

No tools
Required

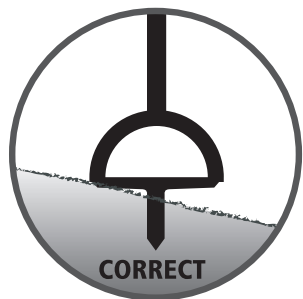

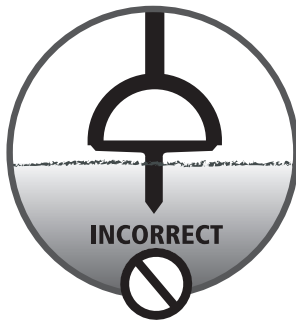

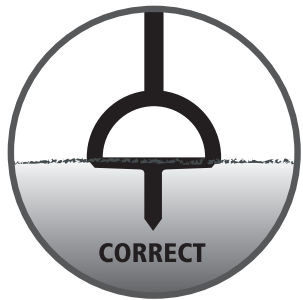

- 1 Slide stake into main tube (A + B)
- 2 Insert quick release pin to secure stake (C + A)

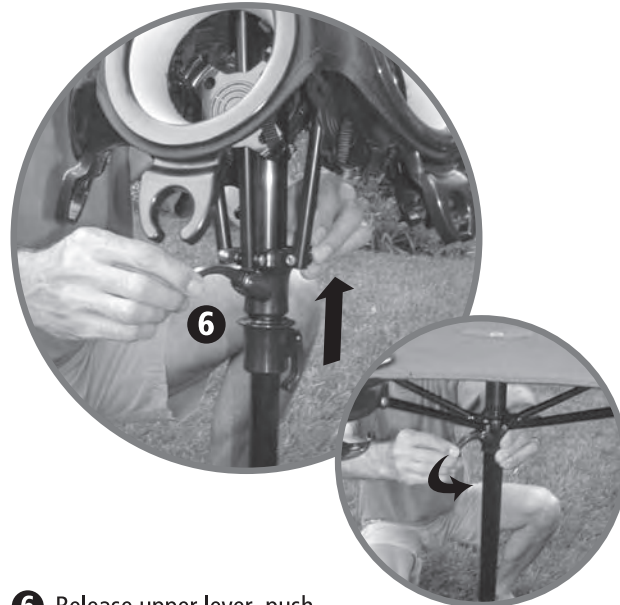

- 3 Release lower lever, pull out lower tube to a height that will be comfortable for you to complete installation while standing. Lock lever.

- 4 Find desired location to place Drink Daddy® and position stake tip in contact with ground. Grip top of Drink Daddy®, using hand to guide proper vertical alignment and insert foot into stirrup stake. Use body weight to press stake into soil. A slight rocking motion from side-to-side and/or front-to-back will help drive the stake into the ground.

- 5 For best stability, ensure footplate is flat and level and firmly in contact with the ground. Note: On sloping terrain, the entire footplate will not be in contact with the ground.

- 6 Release upper lever, push hub upward to open tabletop. Secure lever.
- 7 Adjust tabletop height as needed by releasing lower lever, moving tube up or down, lock lever back in place.

- 8 Drink Daddy® is now ready to hold beverages and snacks. Enjoy!
